Contact: 09691609164

Portfolio: <https://dixonportfolio.com/>

As a Developer with 3 years of experience, I specialize in building responsive, scalable, and user-friendly web applications. I have strong hands-on experience in developing component-based architectures using React, managing state effectively, and integrating RESTful APIs. I am skilled in translating UI/UX designs into high-quality, maintainable code while ensuring performance optimization and cross-browser compatibility. I also work with modern development tools and workflows, including version control, debugging, and deployment processes. In addition, I collaborate closely with cross-functional teams to deliver efficient and reliable solutions aligned with business requirements.

## SKILLED

### Programming & Styling

- HTML, ASP.Net Core C#, JavaScript, TypeScript, Bootstrap, CSS, React.Js,

### Automation & Development Tools

- Power Automate, VS Code, Visual Studio, Automation Studio. Share Point, Restful APIs

### Reporting & Analytics

- Power BI, Excel, PowerPoint, Blank Diagram.

### Design & Creative Tools

- Adobe Photoshop, Illustrator, Figma, Canva.

### Workflow Management

- Jira, Microsoft Teams, Azure.

### Testing & Version Control

- GitHub, Postman.

### Database Management

- MySQL.

## WORK EXPERIENCE

### Gamma Interactive Inc.

Present

IT BE Engineering

- Improved website usability, navigation, and visual consistency by developing and enhancing React-based UI components to deliver a better user experience.
- Optimized layouts, typography, and styling systems using React and modern CSS practices to ensure alignment with brand identity and accessibility standards.
- Integrated and consumed RESTful APIs within React applications to support dynamic data rendering and seamless frontend-backend communication.
- Monitored application behavior and logs to identify UI issues, performance bottlenecks, and failed processes, ensuring stable user experiences.
- Collaborated with cross-functional teams to analyze requirements, design reusable React components, and deliver high-quality frontend features.
- Documented UI components, system processes, automation flows, and technical configurations to support maintainability and team knowledge sharing.

## Other Task

- (Operations) Handled user concerns and provided operational support for the implemented system to ensure smooth functionality.
- Responsible for account creation and user permission maintenance in Salesforce Marketing Cloud, as well as updating Journey Builder, Email Studio, and Automation Studio.
- Integration and Automating processes to help departments reduce manual work using Power Automate.
- Maintained automation workflows in Jira to send emails and notifications to groups and MS Teams channels.

## Accenture

2021 - 2023

### Front End Developer

- Developed and launched responsive web platforms using React and Tailwind CSS, ensuring cross-browser compatibility and mobile-first design.
- Integrated RESTful APIs and WebSockets to create real-time data dashboards for Achievement Board System
- Improved web accessibility (WCAG 2.1) across the main product suite, increasing the potential user base for low-vision users.
- Optimized application performance by implementing code-splitting, lazy loading, and memoization techniques.

## Jiangnan

2019 - 2021

### Graphic Design

- Designed marketing materials including social media graphics, banners, posters, and digital ads
- Created brand-aligned visuals to support campaigns and promotions
- Collaborated with marketing and development teams to ensure design consistency
- Improved visual quality and engagement through modern layouts and typography
- Managed multiple design projects while meeting deadlines

## EDUCATION

---

### Philippine Christian University

2013 - 2018

- Bachelor of Science in Information Technology
